

Our lobbies are open and we're excited to welcome you back!

At Eastern CT Savings Bank, our primary concern is the safety and well-being of our customers and employees. We have taken several actions to ensure we are keeping your well-being front and center.

When you're ready to visit:

A mask or face-covering that covers your nose and mouth is required for entry. If you are not able to wear a mask, you may continue to use our drive-up window or online-banking options.

Since face-coverings are required, customers and visitors may be asked to lower them prior to entry and/or present valid identification at the door.

We will limit the number of visitors in the bank lobby to allow for adequate social distancing.

Hand sanitizer is available at each entrance.

Acrylic dividers have been installed at all desks and customer service areas.

Floor markers and signage have been installed to direct you and help maintain social distance while waiting for service.

All high-touch surfaces will be cleaned after every customer and may take a few moments to complete. We ask for your patience. We are doing our best to keep you safe!

Our branches and ATMs receive enhanced cleaning each evening in accordance with CDC protocols.

If you're not quite ready to make an in-branch visit:

We encourage you to utilize our **drive-thru** window or **online-banking** options.
